## **14th Tee Chipping Green Closed April 11th-12th due to Directional Drilling**

We wanted to take this opportunity to inform you that the irrigation install currently taking place from the pump house area will be travelling underneath the 18th fairway and will surround the general area of the 14th tee box.

As such, the chipping facility and adjacent paths will be closed from April 11th-12th. However, the main chipping green and practice facility will remain open for your enjoyment. We thank you in advance for your understanding and apologize for any interruptions.

Warm Regards,  
Gilles Dufort  
General Manager / Executive Professional  
The Harvest Golf Club
