THGC Irrigation Replacement Update

AP Irrigation has remobilized to complete the second portion of Phase 1 of the Irrigation replacement project, as mentioned in the March 31st newsletter. The scope of work for this Phase entails running pipe in 3 separate locations, referred to as equalization, resulting in more efficient water coverage of areas that have typically been dryer or hydrophobic due to lack of water.

The pipes used are 4 inches in diameter and made of HDPE (high-density polyethylene). This material has proven to be highly durable, or more than 60 years once installed, ensuring long-lasting irrigation, reducing repair costs later and associated disruptions.

May 8th - 14th

5:30 am

Masa's Grill

The installation process will involve direct drilling in three separate locations.

- 1- The left side of #5 fairway green to eventually connect at the front of #3 Green.
- 2- Location #2 will be initiating behind #14 Green, travelling the fairway length to teeing area.
- 3- Location #3 will concur the left-hand side of Hole #13 fairway, connecting to the left-end side of the green.

The scope of work is expected to take approximately two and a half weeks to complete. The final step of Phase 1 will be the removal of the existing pumphouse located to the right of the #9 fairway, including the reconstruction of the actual pumphouse building. Additionally, pipes for the entire irrigation project have been ordered, with anticipated delivery by September 2023. With pipes on site, drilling and installation may begin late this fall, weather permitting.

This is an exciting time for The Harvest Golf Club, now entering its 31st season.

Let me take this opportunity to sincerely thank you for your patience and understanding during these exciting yet strategic times. Installing a new irrigation will provide improved conditions for decades to come. Moving forward, I will continue communicating with you to keep you abreast of this project as it unfolds. Our team is fully committed, to work with our fine membership to mitigating disruptions to ensure your continued enjoyment.

Thank you very much in advance for your cooperation on this unique project.

Open 1 hour before first tee time.
