

The Harvest
Golf Club

Unfavorable Conditions

Please let me take this opportunity to thank our entire THGC membership for their support during these ongoing and unprecedented climactic conditions.

After recently experiencing record breaking temperatures, this has made conditions extremely difficult for our maintenance team to maintain our golf course in the condition you should expect. Since we have seen some form of recovery, especially on fairways, that endured sun damage and discoloration, this combined with disease pressure found on putting surfaces, has put Poa under attack ([anthracnose disease](#)).

By definition Poa is a weed that infiltrates golf courses in the northern hemisphere (our greens, fairways & tees turf composition being bent grass). Poa typically requires cooler/moist environments to thrive and remain healthy.

At this time, we are confident that the disease we've experienced over the last 6 weeks has now been contained. Because of the nature of the disease we have had to raise the height of cut on putting surfaces, and have been unable to verticut mow / light top dress in recent weeks (normally performed every 2 weeks). After fertilizing our greens in recent days we are now experiencing chute growth that may create green speed inconsistency but only for the next few days. This coming Monday (July 19th) the height of cut will be lowered, then Tuesday verticut mowing / topdressing will be performed, these activates should help speed up the greens and provide more consistency in the process.

Golf Shop Hours

**Open 1 hour
prior to first tee
time**

Practice Facility Hours

**May 24th - July
18th**

I would also like to take this opportunity in acknowledging our Golf Course Superintendent Garrett Deck and his entire team for their tireless work in maintaining the golf course during these most unusual conditions.

Wishing you all a very enjoyable remainder of July and August ahead. On behalf of THGC I would to thank all of our members for their continued dedicated support.

Best Person Regards,
Gilles Dufort
General Manager / Executive Professional
